You Are the Movement: Join Us for the 2026 Compassion in Action Conference

What does compassion look like when it is truly lived?

It looks like *you*.

It looks like your community.
It looks like the quiet, persistent, often unseen work happening every day across our global network.

On May 13–14, 2026, the Charter for Compassion invites you to gather for our second annual Compassion in Action Conference—a space where compassion is not just discussed, but shared, practiced, and brought vividly to life.

This is not a traditional conference. This is grassroots speaking to grassroots. This is where community initiatives and partners step forward to *shine*—to tell their stories, to share what is working, and to offer real pathways that others can learn from and adapt.

Across the world, extraordinary things are happening:

- Communities are building bridges across difference
- Educators are transforming classrooms into spaces of belonging
- Youth are stepping into leadership with courage and vision
- Organizations are weaving compassion into systems of care, justice, and sustainability

This is your space to share that work. Step Forward. Share Your Work.

We warmly invite you not only to attend—but to present.

Offer a workshop.
Join or propose a panel.
Bring your experience, your insights, your lessons learned.

You do not need to be a “professional speaker.”
You simply need to be someone who is *doing the work*.

Because what you are doing matters—and someone, somewhere in our global community, is waiting to learn from you. This is how we grow stronger together. This is how compassion moves from idea to action.

Why Attend?

Because you will:

- Connect with others who share your commitment to compassionate change
- Discover practical tools and models that can be applied in your own community
- Be inspired by real stories of impact from around the world
- Experience what it means to be part of a living, global movement

And perhaps most importantly—You will be reminded that you are not alone.

A Living Framework: Where We Come Together

This year's conference reflects the Charter's evolving work—a living framework where our shared values take shape through action across communities, cultures, and generations.

It is a space for:

- Honest conversation
- Shared learning
- Collective visioning
- And renewed commitment
